I am opposed to the proposed settlement.

It doesn't stop the Monopolistic behavior. It doesn't punish Microsoft for putting Netscape and others "out of business" by giving away a copy of their product.

They have continued the practice of adding new products to their Operating System so as to eliminate competition.

This ongoing style of business is a monopoly and stifles competition.

I urge you to follow the original Judge's recommendations and break Microsoft in to at least two parts. They are thumbing their noses at the government and the people of this country. Their conduct leads to squelching competition and is bad for all the rest of us.

Sincerely,

D. McDonald
